PROFESSIONAL SUMMARY

Software Developer with 2.5+ years delivering production web applications across SaaS, fintech and enterprise platforms, with measurable gains in release velocity, page-load performance and API latency. Strong full-stack capability across React.js, Next.js, TypeScript, Node.js, NestJS, Express.js, MongoDB and AWS, including REST and GraphQL APIs, RBAC, JWT, CI/CD and automated testing. Currently building agentic AI tooling, including Model Context Protocol (MCP) servers that expose internal services as typed, permissioned tools for LLM agents.

TECHNICAL SKILLS

Agentic AI: Model Context Protocol (MCP), LLM Tool and Function Calling, Agent Tool Schema Design, Multi-step Agent Workflows, Guardrails and Sandboxing, Prompt Engineering, Tool Permissioning and Audit Logging
Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frontend: React.js, Next.js, Redux Toolkit, React Query, Context API, Tailwind CSS, Bootstrap, Material UI
Backend and APIs: Node.js, Express.js, NestJS, Microservices, REST and RESTful APIs, GraphQL, WebSocket (Socket.IO), JWT, OAuth 2.0, RBAC
Databases: MongoDB, Mongoose (ODM), PostgreSQL, MySQL
Cloud and DevOps: AWS (EC2, S3, Lambda, CloudWatch, IAM), CI/CD, Docker, Linux, Git, GitHub, GitLab
Testing: Jest, React Testing Library, Cypress, Unit and Integration Testing
Also: Web Security, GDPR Compliance, SEO, SSR/SSG, Performance Optimization, WCAG 2.1 AA, i18n
Process and Tools: Agile, Scrum, SDLC, TDD, Code Reviews, Clean Architecture, Postman, Swagger/OpenAPI, Jira, GitLab CI, VS Code

WORK EXPERIENCE

Software Developer, ScalaCode Global Pvt. Ltd. | Dec 2025 - Present
SaaS Product Development | Noida, India

- Architected a **multi-tenant SaaS platform** on **Next.js, NestJS, TypeScript and MongoDB**; shipped a reusable component library that cut feature-development time by **35%** across product squads.
- Designed **REST and GraphQL APIs** with **RBAC**, subscription billing and audit logging; deployed to **AWS** (EC2, S3, Lambda, CloudWatch) via **CI/CD**, with **Jest** and **Cypress** coverage above **85%** and **zero critical post-release defects**.
- Collaborated cross-functionally with Product, QA and DevOps in **Agile/Scrum** cycles, owning code review standards and release readiness across the platform.

Software Developer, Nera Soft and FinServ Pvt. Ltd. | Nov 2024 - Nov 2025
Fintech and IT Services | Noida, India

- Built responsive fintech web applications using **React.js, Next.js, Node.js, Express.js and MongoDB**; introduced **SSR/SSG**, cutting page-load time by **40%** and improving SEO visibility.
- Implemented secure authentication with **JWT and OAuth 2.0**, integrated payment-gateway and KYC APIs, and optimized database queries and React.js render paths to cut API latency by **30%**; mentored **2** junior developers.

Software Developer, QSpiders | Jan 2024 - Oct 2024
Software Training and IT Services | India

- Delivered client web applications using **React.js, Node.js, Express.js and MongoDB**, building reusable components and REST endpoints that accelerated delivery by **25%**.
- Resolved **50+** defects across releases and wrote unit tests and technical documentation that improved code maintainability and new-joiner onboarding speed.

PROJECTS

Orgalyzer - Organizational Resilience and Error-Culture SaaS | orgalyzer.com
Stack: React.js | TypeScript | Redux Toolkit | REST APIs | Socket.IO | Recharts | Tailwind CSS | Stripe | GDPR | WCAG 2.1 AA

- Delivered client web modules for a live EU B2B SaaS platform measuring **organizational resilience and error culture** from anonymized employee feedback across **15** technical domains, surfaced as radar, risk-heatmap and executive-report views.
- Built the **assessment-builder and scoring workflow**: a **67**-item domain-mapping engine with configurable Likert, frequency and resilience-maturity scales producing a **Resilience Index** benchmarked against industry averages, plus **GDPR-compliant** tenant administration and **PDF/PPT** export.
- Implemented a real-time **Socket.IO** event layer for live assessment progress and result updates, delivering a **WCAG 2.1 AA**, mobile-first interface with **English and German** localization (**i18n**) and **GDPR**-compliant tenant administration.

NifiPayment - Secure Payment Gateway Platform | nifipayments.com
Stack: React.js | TypeScript | Redux Toolkit | REST APIs | Web Security

- Built a live production payment gateway platform end-to-end as sole developer, with encrypted data handling, secure sessions and reusable React.js and TypeScript components; scored **95+** on **Lighthouse** performance.
- Integrated REST APIs for payments, refunds, transaction history and authentication; cut re-renders by **40%** through a **Redux Toolkit** refactor.

HomeTutorx - Tutor Booking Web Platform | hometutorx.com
Stack: React.js | Node.js | Express.js | MongoDB | Tailwind CSS

- Shipped a live full-stack **MERN** platform end-to-end as sole developer, connecting students with qualified home tutors through real-time search and advanced filtering, improving discovery time by **60%**.
- Built REST APIs for authentication, tutor availability and session scheduling, delivering a responsive and accessible interface across modern browsers and devices.

EDUCATION

B.Tech, Computer Science and Engineering | 2020 - 2024
Dr. A.P.J. Abdul Kalam Technical University, Lucknow | CGPA: 8.0 / 10
